## LABOR WINS OVER VOTE OF CENSURE IN COMMONS

Government Triumphs in  
First Test Yet Moved  
Against It by British To-  
ries in Voting to Strike  
Out the Import Duties on  
Automobiles.

### BULK OF LIBERALS FOR REMOVING TARIFF

Their Support Given to La-  
bor on Free Trade Issue;  
Lie Passed But Softened  
Into Parliamentary  
Phrase.

JOHN L. BALDERSTON,  
London Correspondent of the Post-  
Dispatch and New York World.

Copyright, 1924, by the Press and Pulitzer  
Publishing Co., the New York World

LONDON, May 14.—The Labor  
Government triumphed in the  
House of Commons last night over  
the first vote of censure yet moved  
against it by the Tories.

The censure motion was an at-  
tempt to prevent Chancellor of the  
Exchequer Snowden from removing the  
McKenna duties of 33 1/3  
per cent on imported automobiles.  
The Labor majority of 65—the vote  
was 317 to 252—was composed of  
the solid Labor vote and the bulk  
of the Liberals, who supported the  
Government because the issue raised  
was one of free trade against pro-  
tection. Only a few scattered Lib-  
erals voted against the Snowden  
budget, which former Premier As-  
quith had termed a "free trade  
budget."

Albert Purcell, Laborite, from  
Croydon, the center of Great Brit-  
ain's automobile industry, who had  
made speeches against the repeal of  
the duties as the self-styled spokes-  
man for the workers of his con-  
stituency, abstained from voting.

**Sharp Oratorical Exchanges.**

The vote followed seven hours of  
oratory, which was enlivened by some sharp exchanges. Capt. Ter-  
rell, a Tory, accused Snowden of  
having lied when he said employ-  
ers rather than automobile workers  
were opposed to repeal of the du-  
ties. There was much shouting and the Speaker ruled Terrell must  
withdraw the offensive word. This  
did, substituting the phrase in-  
accurate statement made by the  
Chancellor of the Exchequer.

Former Premier Baldwin, the  
Tory leader, headed the attack on  
Labor. He declared removal of  
the automobile duties was one of the  
stupidest things that had ever been  
done. He predicted great un-  
employment would be caused in the  
British motor trade, just as it was  
picking up and beginning to make  
headway. The foreign markets  
lost to the United States during the  
war. The Tories consistently have  
contended that cheap American  
cars, made under the mass produc-  
tion system, would flood this mar-  
ket and ruin the British industry.

**No Color in the War Paint.**

"I had expected," Chancellor  
Snowden remarked, in answering  
Baldwin, "knowing the almost un-  
precedented violence of the cam-  
paign raging in the newspapers,  
that members of the party opposite  
would have come to the House to-  
day in full war paint and shouting  
war whoops. Instead, the leader of  
the opposition's speech was a mild  
and watery production."

Snowden taunted his opponent  
with having forgotten he fought  
the last election on the same pro-  
tection for manufactured goods  
adding: "I know of nothing in my  
political experience more mean and  
dishonorable, in view of the way  
the country accepted these duties  
during the war, than that an at-  
tempt should be made now to keep  
them as part of our fiscal system."

**Britain's Automobile Industry.**

Snowden described Baldwin's  
picture of unemployment ironically  
as touching everyone's heart. He  
went on to show that there were  
not so many workers in the auto-  
mobile industry as recent accounts  
would have people believe—some  
of these estimates fixing the num-  
ber as a million men in the British  
motor industry, which last year  
produced only 62,000 cars. The  
big plant in the country, accord-  
ing to Snowden, has a payroll of  
only 4952 men. He said Henry  
Ford was in the country and responsible  
for the price reductions which had  
taken place, and pointed out that  
in \$912, before the duties were in-  
stituted, Great Britain exported

### EDWARD FLAD NAMED TO RIVER COMMISSION

St. Louis Selected by War Sec-  
retary as Civilian Engi-  
neer Member.

By the Associated Press.

WASHINGTON, May 14.—Ed-  
ward Flad of St. Louis was selected  
today by Secretary Weeks to be  
a civilian engineer member of the  
Mississippi River Commission. His  
nomination will be sent to the Sen-  
ate by President Coolidge at an  
early date.

**Flad Former Member of Missouri  
Public Service Commission.**

Flad is a former Water Commis-  
sioner of St. Louis, and was a mem-  
ber of the Missouri Public Service  
Commission for seven years.  
He is a son of the late Col. Henry  
Flad, a pioneer St. Louis civil  
engineer, who was an early  
head of the Board of Public Im-  
provements, and for whom Flad  
avenue is named.

The vacancy to which he is ap-  
pointed is that left by the death of  
Col. John A. Ockerson.

The salary is \$5,000 a year, and the members  
of the commission have the duty  
of supervising river improvement  
and levee construction work, making  
frequent trips to Government  
steamers to inspect the work.

**Sharp Oratorical Exchanges.**

The vote followed seven hours of  
oratory, which was enlivened by some sharp exchanges. Capt. Ter-  
rell, a Tory, accused Snowden of  
having lied when he said employ-  
ers rather than automobile workers  
were opposed to repeal of the du-  
ties. There was much shouting and the Speaker ruled Terrell must  
withdraw the offensive word. This  
did, substituting the phrase in-  
accurate statement made by the  
Chancellor of the Exchequer.

Former Premier Baldwin, the  
Tory leader, headed the attack on  
Labor. He declared removal of  
the automobile duties was one of the  
stupidest things that had ever been  
done. He predicted great un-  
employment would be caused in the  
British motor trade, just as it was  
picking up and beginning to make

### VILLAGES DESTROYED AND 50 LIVES LOST IN EARTHQUAKE

Constantinople Dispatch Tells of  
Violent Shock Near Erzerum,  
Asiatic Turkey.

By the Associated Press.

CONSTANTINOPLE, May 14.—A  
violent earthquake is reported  
in the region of Erzerum, several  
villages have been destroyed and  
about 50 lives lost.

Erzerum, in Eastern Asia Minor,  
just south of the Caucasus, for  
years was the principal city of Tur-  
kish Armenia and a highly impor-  
tant center of trade, which recently  
has suffered a heavy loss.

The surrounding territory  
is a lofty table land, is fertile,  
and the people are hardy.

Meanwhile the victors are say-  
ing: "After Poincaré, Millerand."

They are determined that both the  
Premier and the President shall go.

They hold the one as much allied  
to the defeated Bloc National as  
the other.

It is generally felt that Herriot  
would make an excellent demo-  
cratic leader. He appears to be  
a man of ability and integrity.

Millerand Prefers Briand.

Millerand, who has no  
political connections, is  
considered a safe bet.

Millerand Prefers Briand.

## SENATE WITNESS TELLS OF KU KLUX SPY SYSTEM

Says Telephones in Texas  
Were Under Surveillance  
and Klansmen Watched  
Their Neighbors.

### HOW "FEAR OF GOD" WAS PUT IN NEGROES

Attorney in Contest for  
Mayfield's Seat Says He  
Will Prove Klansmen  
Are Conspirators.

Post-Dispatch Bureau,  
20-23 Wyatt Building,  
WASHINGTON, May 14.—Erwin J. Clark, a former great titan of the Ku Klux Klan, in testimony at the committee hearing on the election of Earle B. Mayfield of Texas to the United States Senate, said that H. W. Evans, the imperial warden of the Klan, was present at a conference in Houston in which atrocities were approved.

The testimony was taken yesterday and related to conversations in which some officers of the Klan approved branding and other mutilations.

Luther Nickels, representing George E. B. Puddy, contestant for Mayfield's seat, announced his theory of branding that the organization was criminal and that those who belonged to it were conspirators who were not entitled to hold any public office.

A former great titan told of a system of espionage which included the supervision of telegrams and telephone messages and the training of citizens by their Klan neighbors until no man's secret was safe.

The testimony was taken tentatively over the repeated objections of Mayfield's lawyers that it was not pertinent unless it could be shown that the Senator personally approved of branding. But it was finally agreed to let the testimony go in and decide later whether to consider it relevant.

The men who asked leading questions and the man who answered them had been Klansmen. Erwin J. Clark, former great titan for a Texas province, was the witness. It was while Nickels was arguing that every Klan member was in a conspiracy that his own former connection was disclosed.

"He should know. He joined them; I didn't," spoke up W. P. McLean, lawyer on the other side.

"Yes, I did," said Nickels. "And I expect to devote the rest of my life to undoing the great wrong I did. That's no secret."

**Must Obey Orders.**

Clark had scarcely spoken a dozen words before the fight to exclude his talk with Imperial Warden H. W. Evans began. Clark said:

"He (Evans) took the position that if a representative form of government were to be permitted in the Klan, we would not be getting anywhere politically. It was necessary for a Klanman to obey orders like a soldier. I can recall the phrases he used."

Clark described a conference at Houston in which Evans and H. C. McCall, described as a great titan for the Houston province, and a close associate of Evans at the "Imperial Palace" participated. McCall is now known as the "perial ambassador" to Washington. The conference, according to the witness, took place in 1922, shortly after the Texas provinces had been organized.

"Dr. Evans," Clark testified, "had not relinquished the great citizenship of Dallas. The newspapers were full of tar-and-feather parties. McCall began joking Dr. Evans about the parties in Dallas. Evans said he was going to Dallas and was not going to stand for outrages of that kind. McCall broke up with a laugh and said that Evans ought to quit his hypocrites."

Thereupon parties which had taken place under Evans' jurisdiction

## BUSTS OF TWAIN AND EADS ARE AMONG TEN UNVEILED AT THE HALL OF FAME

Nine Men and One Woman, All Americans, Honored at Impressive Ceremonies at New York University.

By Leased Wire From the New York Bureau of the Post-Dispatch

NEW YORK, May 14.—The busts of ten Americans—nine men and a woman—today received their permanent place in the colonnade of the Hall of Fame at New York University, following the unveiling ceremonies at which the illustrations, accomplishments and benefactions of those honored gleamed afresh through the words of orators who spoke for Mch. the white light of undying fame.

The latest additions to the Hall of Fame where greatness alone is recognized, regardless of race or creed, are:

Thomas Jefferson, John Adams, Andrew Jackson, Dr. William Thomas Green Morton, Phillips Brooks, Samuel Langhorne Clemens (Mark Twain), Peter Cooper, James Buchanan, Dr. Joseph Henry and Dr. Freeman Palmer.

**Unveiling in Tent on Campus.**

The busts were unveiled yesterday under a huge tent upon the university campus. About 2000 persons crowded under the canvas and every spot on the campus from which a glimpse of the ceremonies could be had, was occupied.

First came the procession, headed by Robert Underwood Johnson, director of the Hall of Fame, and presiding officer at the ceremony, and Chancellor Elmer Ellsworth Brown of New York University. This was preceded by the Gloria Trumpeters, four young women in flowing white robes. Flags of various states and universities were in the line which was made more colorful by sashes of red, denoting divinity; yellow, science; violet, New York University; green, medicine.

The bust of Phillips Brooks, by Daniel Chester French, was presented on behalf of Trinity Church, Boston, by William V. Kelley of Trinity's vestry. It was unveiled by Miss Josephine Brooks, niece of the Bishop. Miss Agnes Repplier paid him tribute.

**Daughter Unveils Twain Bust.**

Mark Twain's bust was unveiled by his daughter, Mrs. Osgood Gabriowitch. "This bust," Dr. Gabriel H. Hubbard, president of the estate of Mark Twain, and was presented by his nephew, Jervis Langdon. Miss Agnes Repplier, author, paid the tribute. Mark Twain, she said, had "the same vigorous regard for the nation's honor that he had for his own."

Gov. Hyde of Missouri was present. The bust was unveiled by Wellington Wells, president of the Massachusetts Society, which donated it. It was unveiled by John Adams, great-grandson of President Adams. Prof. William M. Sloane, president of the American Academy of Arts and Letters, made the address, paying high tribute to Adams' great ability and human qualities.

**Credit Given New York World.**

Thomas Jefferson's bust was the only one provided by popular subscription. Robert Underwood Johnson, in whose behalf it was presented by the American Society of Civil Engineers, whose president it was, was presented by George H. Davidson, vice president of the society. It was unveiled by James Eads Swift, son of Capt. Eads. Dr. George F. Swaine, professor of civil engineering at Harvard, delivered the address.

The bust of James Buchanan Eads, by Charles Graffy, is the gift of the American Society of Civil Engineers, whose president it was, was presented by George H. Davidson, vice president of the society. It was unveiled by James Eads Swift, son of Capt. Eads. Dr. George F. Swaine, professor of civil engineering at Harvard, delivered the address.

VISION OF EPISCOPAL  
ORAL LETTER SUPPRESSED

tion of Subject Tabled at  
Episcopal Convention to Pre-  
vent Controversy.

Associated Press.

YORK, May 14.—Two res-  
olutions calling in effect for re-  
vision of the declaration in  
the recent pastoral letter of the  
bishops that "it was the  
duty of the church not to ex-  
clude from its membership any  
but to proclaim a fact that  
was of history in none other  
than the case of St. Paul and Savor."

Both resolutions were tabled  
by unanimous vote at the  
meeting of the New York diocese  
of the Protestant Episcopal Church.

Archbishop Manning was presiding  
over the resolutions when they were tabled.

There was no discussion.

Another convention resolution fol-  
lowed a committee report which  
stated that it was not within the  
scope of the convention to dis-  
cuss the pastoral letter. The res-  
olution expressed the belief that dis-  
cussion of the resolutions would re-  
sult in the church's modern-  
ismal controversy and "by  
anticipation misinterpretations might  
harm the church."

Rev. Dr. Percy Stickney

a modernist, characterized  
as "an unfortunate de-  
velopment." If such questions  
were to be raised without dis-  
cussion, he said, the diocesan con-  
vention might be considered "a  
matter of time."

8, IDENTIFIES MAN  
SHE SAYS ATTACKED HER

es Schoenfeld, 21, makes no  
statement about alleged Oc-  
currence of Sunday.

Walter, 8 years old, son of Mr. and Mrs. Louis

of 3835A Washington

ward, today identified at her

as a man who she said had

attacked her at 6:30 p.

m. Sunday. The man who

arrested this morning was

by the police to be Charles

enfeld, 21, of 417 Ashland av-

er. He admitted taking her for

her, but denied attacking her.

Walter's mother said that a

man, after an examination

day, declared she had been

attacked.

Walter related that Schoen-

feld had been calling on her

since he had often visited the house on

Sunday afternoons. Last Sunday, he

took her daughter out

in his automobile without

knowledge and she whipped

him for this when he re-

turned. Yesterday the child be-

came ill, and thereupon told of the

attack.

Walter said Schoenfeld took her

to a garage the location of which

she did not know.

SUSPECT HELD IN  
DAISY ASHBY CASE  
CHANGES STORY

William DeWitt Admits He  
Lied in Accounting for  
Activities on Night of  
Girl's Disappearance.

NEGRO PORTER AT  
GLASGOW ARRESTED

Railroad Section Foreman  
Also Taken Into Custody,  
Charged With Perjury at  
Inquest.

Special to the Post-Dispatch.  
KETTLESVILLE, Mo., May 14.—Developments today in the investigation of the mysterious murder of 14-year-old Daisy Ashby, whose nude body was found under a brush pile near Glasgow last night.

William DeWitt, one of two railroad section hands from Gilman, Mo., arrested after the body was discovered, has confessed to his activities on the night of Feb. 2, when the girl disappeared. However, he still denies knowledge of the murder.

Fred Hagar, arrested with DeWitt, was released on orders from Prosecuting Attorney Baumhoff of Chariton County, who announced Hagar's account of his activities on Feb. 2 had been verified. Hagar later may be used as a witness.

Mr. Donaldson, negro porter,

whom DeWitt identified as the man who was seen with Daisy Ashby and him on Feb. 2, has

been lodged in jail pending investigation of his own activities that night. DeWitt now admits he was the girl's escort at the school

show.

Ernest Damma, railroad section foreman, has been jailed and charged with perjury at the inquest, where he repudiated statements attributed to him previously.

Borrowed a Lantern.

Doyle McDonald, attorney for the C. & A., said he was the man who was with Daisy Ashby when DeWitt, the negro porter, saw them leaving the school grounds. Donaldson stepped off the sidewalk to let them pass and then he says went to his home. The girl was last seen alive as she left the home of an aunt, where she borrowed a lantern at 11:45 p. m.

Hagar told the authorities that DeWitt had confided to him that he had improper relations with the Ashby girl on Feb. 2. DeWitt denies this. Hagar also had passed along to DeWitt the name of a section foreman for the C. & A., and Damma is friends.

DeWitt had confessed before a hearing before Sheriff Wilks, accompanied by a special agent of the Wabash Railroad, went over to Glasgow, which is in Howard County, and investigated the stories of DeWitt and Hagar, as well as certain testimony at the inquest held last Tuesday. The developments here-tofore outlined followed.

Hagar had talked to DeWitt for seven minutes in Glasgow the evening of Feb. 2 and then parting in meeting again, the two men boarding freight trains at Glasgow about 11 p. m. and waited until 1:57 a. m. when he boarded a train for Gilman. DeWitt revised this to the effect that when the train arrived at Gilman Hagar jumped off, but he, DeWitt, was unable to do so and was forced to continue on to Slater, Mo., then back to Glasgow on a second train and finally on a third train from Glasgow to Gilman, getting home about 2:30 a. m. Sunday.

Investigation disclosed that Hagar had left Glasgow on a freight train bound for Gilman at 10:40 p. m., but that DeWitt was not with him; also that DeWitt arrived at C. & A. about 11:30 p. m. and waited until 1:57 a. m. when he boarded a train of tank cars and rode to Gilman. Confronted with this, DeWitt admitted his story of riding three trains for three and one-half hours to get to Gilman was untrue.

Story DeWitt Now Tells.

The story which DeWitt now tells, and which Hagar confirms so far as he is concerned in it, is that the two met to go to Glasgow Saturday afternoon, about 1 p. m. While passing the McKinley Hotel, Fred Nott at 7:30 p. m. they were greeted by Daisy Ashby and a short conversation ensued, during which DeWitt made an appointment to meet the girl after the movie show was over. The girl then went around the corner to the movie and the men strolled around town.

About 9:45, when the show was over, DeWitt met the girl and Hagar, having no companion, went to the depot and waited for a train to his home town. DeWitt and Daisy Ashby then walked eastwardly toward the public school grounds, which has the reputation of being a "spooners" rendezvous. They spent considerable time in that neighborhood, walking and talking, and parted at 11:30 with the understanding they would meet Sunday morning in Glasgow. DeWitt

CONFESSED SLAYER  
AND GIRL HE SAYS  
HE WAS PROTECTING

HELEN TIKART.

WILLIAM PROSSER.

YOUTH ADMITS HE  
KILLED HOUSEBOAT  
MAN WHO HIT GIRL

Shooting of Clement Mejera, 40, on Levee, Solved by Confession of William Prosser, 18.

The mystery of who killed Clement Mejera, 40 years old, at the door of his houseboat at the foot of Levee street at 3:30 p. m. yesterday, was solved today with the confession of William Prosser, 18 years old, of 1562 South Second street.

Prosser was one of a group of youths who had besieged Mejera after he had dragged a 14-year-old girl into the boat and defied them to take her away. The confession came after six youths, between 16 and 20 years of age, had spent the night in Soulard Street Station holdover.

Prosser was one of the youths who had besieged Mejera after he had dragged a 14-year-old girl into the boat and defied them to take her away. The confession came after six youths, between 16 and 20 years of age, had spent the night in Soulard Street Station holdover.

**"STAGGERING OUT" NO SIGN  
MEN WALKED IN STRAIGHT**

Court Dismisses Liquor Case  
Brought by Gus Nations on  
Ground He Said Drunken Men  
Leave Place.

Observance by Gus O. Nations, chief of the prohibition enforcement forces here, of four men leaving Riverview Inn in what Nations regarded as an intoxicated condition, was insufficient ground for the issuance of a search warrant for the place. Federal Judge Paris held today in sustaining a motion to suppress the evidence in a liquor possession case against Joseph M. Sisk, proprietor of Riverview Inn.

The place was raided April 20 last and a quantity of "moonshine" liquor and "home brew" reported found, on a search warrant Nations obtained through his affidavit that he had seen drunken men leave the place, north of Chain of Rocks, on Riverview drive.

Judge Paris pointed out that Nations' affidavit "did not even say that the men go in the place sober." The Court reporter wrote the judge's notice, the Judge added, "that any one of the men might have had, as the veracious has it, 'something on the hip' when they went inside."

Judge Paris also dismissed contempt proceedings against Sisk growing out of the same case. The restraining order did not prohibit occupancy of the premises.

**ALLEGED DRY VIOLATOR  
SUED FOR BACK TAXES**

Man Whom Government "Forgot" to Send to Jail Is Asked to Pay \$1956.12.

Ernst A. Koerner, whom the United States Government "forgot" to send to jail for his repeated violations of the Volstead act, was sued by the Government today for \$1956.12, for back taxes of the Burke Tire and Rubber Co. of 2100 Kienlen avenue, Wellston.

Koerner, who was treasurer of the Burke concern, is said to have written a letter to Collector Hellmich last fall, after a distraught warrant had been issued against the company for its back taxes due, and to have guaranteed payment of the taxes with interest by Dec. 1 last, when he was not married.

Koerner was proprietor of the Merchants' Catering Co., 405 Washington avenue, and he was sentenced March 11, 1921, to serve six months in jail and pay a \$1000 fine for sale of liquor there. In December, 1922, Koerner, having exhausted legal resources in his resistance, was formally "committed" to jail by Judge Paris, but it was announced that the officers of the Court would not serve the commitment, because of Koerner's illness. He was then 69 years old. He paid the \$1000 fine.

**M'CORMICK HEIRS FIGHT TAX**

Oppose \$1,543,000 Inheritance Levy on \$7,000,000 Fund.

By the Associated Press.

CHICAGO, May 14.—Inheritance taxes approximating \$1,543,000 are involved in a contest by heirs of Mrs. Nettie Fowler McCormick, widow of Cyrus H. McCormick, inventor of the reaper. The amount is among the largest ever contested in a tax case here. The question involved is a law requiring the trustee to pay inheritance taxes on any property over which the trustee has retained control or supervision up to the time of death. The tax office contends that Mrs. McCormick retained control of a \$7,000,000 trust fund and administered it in fact until her death. The five heirs are Cyrus H. McCormick II, chairman of the board of the International Harvester Co.; Harry C. McCormick, chairman of the company's Executive Committee; Mrs. Emma Blaine, Miss Virginia McCormick of Birmingham, Ala., and Stanley McCormick of Los Angeles.

Postmaster—Embezzler Sentenced.  
By the Associated Press.  
KANSAS CITY, Mo., May 14.—  
Joseph Ritchey, formerly Postmas-

ter at Nelson, Mo., was sentenced for embezzlement of \$1912.57. Ritchey admitted he sold Treasury Savings Certificates and pocketed the money.

# DORT SIX

Five-Passenger Sport Touring  
\$1245.00

## A Sport Model on a Sedan Size Chassis

Long, roomy, powerful, this striking Sport Model is built on the same chassis as the big Dort Sedan. It has the same 115-inch wheelbase . . . the same solid, sturdy construction . . . the same virile, oil-cushioned motor. A youthful, dashing car for discriminating people. Big in every dimension. Nimble in traffic, speedy on the open road, smoothly sure on hills. Equipment is all that you expect a fine car's to be, even to the gasoline gauge on the dash, the smart looking trunk and the cover on the fifth cord-tired disc wheel. The price is what you might hope but would not expect it to be—\$1245.

Dort Sizes \$1095 to \$1595, at First

### WILSON MOTOR CAR COMPANY

Geo. A. Krauss, President  
2921-23-25-27 Locust Boulevard  
Open Sundays and Evenings—We Will Trade—A Year's Time to Pay

Buy it now—All dealers: in packages of 6 cakes—a 2-months' supply. Cost less than 1c a day

in  
10  
seconds

Aluminum bright as silver  
perfectly cleaned and polished

No soaping—scraping—scouring!

Now clean your aluminum utensils in half the time it used to take. And in the same 10-second operation give them a gleaming, silvery polish.

Scrubbing, soaping, scouring, are things of the past.

**Soap and polish combined**  
In one cake you now find fine soap for cleansing and soft wool for polishing. Wet an edge of the cake, and rub a couple of times.

You get rid of the meanest stains, the stickiest dirt, in 10 seconds. Stubborn, burned-in spots go, magically. And at the same time you get a mirror-like polish.

**Saves hands—and time**  
It cost us a fortune to perfect this

new way. There is no other like it.

Your tender hands will welcome this new cleaner-polisher. It doesn't roughen and reddens them. It shortens the time they soak in dishwater.

The whole task of dishwashing is cut down 25% or more in time. Your other utensils are cleaned just as quickly—glass, graniteware, anything.

**Get it today**

All dealers now handle "S. O. S." Package contains 6 cakes—2-months' supply. Get some today. Start saving hands, time, and work—the next time you wash dishes.

S.O.S. Mfg. Co., 3800 S. Morgan Street, Chicago

**S.O.S.**  
Combines fine soap and soft wool in  
convenient cake. Each cake lasts over one

## CHAUFFEUR SHOT BY WIFE DIES

Wound in Abdomen Proves Fatal to Taxi Driver After Quarrel in Home.

Thomas Shawder, 22 years old, died at city hospital last night from the bullet wound inflicted April 24 by his wife, Marie, at their rooming place, 4038 Olive street.

They had been married, after a dark half period, at the age of 13 and 15, and matrimony had been a stormy experience for them, punctuated by occasional beatings which the young husband felt called upon to administer to his young wife.

Shawder was a taxi driver. He came home after midnight. His wife had been drinking home brew, it is alleged. He said he was going to give her a real beating and he bought a .32 cal. handgun. Mrs. Shawder had a revolver. She warned him not to come near her. He backed into the bathroom. She dared him to come out and when he came out she shot him.

Then she helped him downstairs and into his taxi and he tried to drive to the hospital, but at Spring avenue and Olive street he had to give it up, for he had been shot in the abdomen. His wife drove the car to the Midway Hotel, where she picked up another chauffeur, who drove them to the hospital.

Mrs. Shawder was released on bond, but was rearrested last night. She had expressed hope that her husband would recover, but exhibited no emotion when told that he was dead.

There is a son, 3 years old, now in the care of the Board of Children's Guardians.

## NEW WATERWORKS INTAKE BID \$66,772 UNDER ESTIMATE

Structure to Be Built by City on Missouri River at Howard's Bend to Cost \$1,058,228.

The intake of the new waterworks plant on the Missouri River will not be a tower in midstream, as is the Chain of Rocks intake in the Mississippi, but will be built on the river bank at Howard's Bend, St. Louis County. It will cost considerably less than the Waller Mississippi Wall, estimated to be \$1,058,228, it developed yesterday. Construction of the new intake and pits, an important part of the new \$12,000,000 plant authorized by last year's bond issue, will take two years.

The new intake and the low and high service engine pits are combined in one contract, and bids for this contract were opened yesterday by the Board of Public Service. The intake will be built of the Frazer-Davis Construction Co. \$1,058,228, which is \$66,772 lower than the commissioner's estimate.

The intake will be constructed of reinforced concrete and will be on concrete piles driven to bed rock 55 feet below the ground level.

The low service engine pit will be 44½ feet below ground level, 90 feet wide and 124 feet long, and will extend 14 feet above ground level. The high service pit will be constructed 25 feet below ground level, will be 70 feet wide, 140 feet long, and will extend 63 feet above ground level.

The engine pits will be constructed to provide equipment for engines with a capacity to pump 40,000,000 gallons a day in the low service pit and 30,000,000 in the high service pit.

For construction of 4308 feet of railroad track to connect the waterworks plant with the Rock Island Railroad and the proper switching at the plant the bid of the Industrial Track Construction Co. of \$28,562.02 was the lowest. The estimate had been \$32,000.

## BOY RUN OVER BY AUTO TRUCK AFTER TAKING SODA

He Stumbles in Front of Rear Wheel When Starting to Run Away—Two Other Boys Hurt by Autos.

Francis Luntz, 10 years old, of 716 Wyoming street, and another boy about the same age, ran at the side of a bottling company truck on Cherokee street near Indiana avenue yesterday afternoon and each grabbed two bottles of soda from cases on the truck.

As Francis was tucking his bottles under his arm he stumbled and fell. The right rear wheel of the truck passed over his chest. He suffered fracture of the left shoulder, internal injuries and numerous lacerations. His condition is serious.

Earl Campbell, 12, of 1922 Laffin avenue, suffered lacerations of the head and arms when knocked down by an automobile after he had suddenly darted from behind another at Laffin avenue and North Market street. Alice Wingerhume, 16, of 2849 Forest Avenue, suffered fractured bones in the right hand and lacerations when knocked from his bicycle by an automobile at Seventh boulevard and Sidney street.

## SOUGHT FOR BOND THEFT

Youth, Broker's Messenger, Disappears. With \$10,500.

By the Associated Press.  
NEW YORK, May 14.—Richard, a 24 years old, broker's messenger, was sought by police today on a charge of having stolen \$10,500 in Liberty bonds from his employer, Mahon & Co.

Park, who had been employed but a few days ago, was given the bonds yesterday to deliver to another brokerage house.

## "Say, Girlie... Wanta Ride?"

Of course this couldn't happen to your daughter. She has no abnormal craving for adventure, excitement and romance. Her sense of values is well established. She knows a real man when she sees one. You bet!

But why bet?

You can make a safer investment by keeping the growing boys and young men off the sidewalks and away from questionable and vicious resorts. You can help to shape their instincts so that they will look at your daughters with respect.

Why shouldn't St. Louis boys go wrong? Where else can they go? There's a hole in the ground where the Grand Avenue "Y" and Gym once stood, an overcrowded plant up by Sportsman's Park, a Colored and a Railroad Equipment, and that's about all. Sixth in population, St. Louis is 42nd in young men's clubs.

Fathers and Mothers! The Y. M. C. A. provides a place for boys and small-salaried young men to live, exercise, play and study in under clean, decent, wholesome conditions. Besides our own boys, 20,000 young men without homes come to St. Louis every year. Turn down the Y. M. C. A. and you turn them loose to pick up the depravities of a great, vice-laden city.

The "Colonel's Lady and Judy O'Grady are sisters under the skin." Don't be too sure that you haven't a selfish interest in subscribing to the greatest of young men's clubs... the Y. M. C. A.

## INFORMER TELLS OF BUYING COCAINE FROM WILSMAN

Harvey Whiteside, 44, is witness for Government at the Trial of "Big Henry."

### FEDERAL AGENTS IDENTIFY NARCOTICS

Police Sergeants Also Describe Trap Laid for Alleged Drug Peddler and His Arrest.

Government witnesses began testifying yesterday against "Big Henry," Wilsman, known as St. Louis' biggest dealer in illicit drugs, who is on trial before Federal Judge Davis for alleged violation of the Harrison anti-narcotic act.

Wilsman's craftiness has baffled Federal agents seeking to catch him. The sobriquet of "Big Henry" refers to his size and to the volume of his merchandise. He is a tall, heavy-set man. He sits in court impassionless, except when leaning forward to whisper with his lawyer about evidence. He wears a faded calico shirt, open at the neck, without a tie. His shock of hair is unkempt.

### Informant Testifies.

An informer, who helped the Government agents in "making" the case, was yesterday called as a witness. He is Harvey Whiteside, 44 years old, of 1184 South Eighth street. Stoutly denying the insinuation of defense counsel that he himself was a drug addict, he nervously crossed his legs, twirled his hands and declared, he had bought narcotics from "Big Henry" for his wife and for others who lived in the house with them.

Last January the Federal agents had learned of a "nest" of drug addicts and an investigation arrested Whiteside, in whose room they found narcotics. Whiteside's testimony for the Government was chiefly to tell about how he "made a buy" of cocaine from Wilsman on Feb. 5, after his arrest.

Wilsman's lawyer tried to get Whiteside to say that the arrest of "Big Henry" had been a "frameup," but the informer would not comply.

### Penitentiary Threat.

"Didn't they tell you that they could send you to the penitentiary for 15 years for having possession of that stuff?" the attorney asked. "No, sir," the witness replied, "they said seven years."

However, Whiteside said the agents promised to free him if he "made a case" against Wilsman. Agents say it is hard to get substantial evidence against drug peddlers without the help of informers.

Whiteside told of purchases of narcotics from Wilsman on three days last February, ending with the one on Feb. 5, when the agents were on the scene. The transactions all took place near the corner of Eleventh street and Park avenue, on the sidewalk, he said. When Wilsman was arrested there he had just left the office of Dr. Leo W. Reber, around the corner at 1343A South Eleventh street. The office was raided and a large quantity of narcotics, which the physician said belonged to Wilsman, were found there. Dr. Reber has pleaded guilty in the case.

Federal Narcotic Agents Charles Thompson and H. S. Brown and Detective Sergeants Edward Dowd and Paul Girard, who work with the agents, testified about the arrest of Whiteside, the previous arrest of Wilsman, the previous arrangement with him to trap Wilsman. They identified the narcotics found in Whiteside's room, which, they said, Whiteside told them he had bought from Wilsman, and also they identified the cocaine the informer had purchased, which he had looked on. They told of "Big Henry" tossing into the snow on the sidewalk the marked money with which Whiteside had paid him, as the drug peddler was made to throw up his hands. Thereupon, three school girls, who were passing, pointed out the money.

There are 18 counts in the indictment against Wilsman—four charging possession of narcotics, seven charging unlawful purchase of narcotics and seven charging unlawful sale.

Wife SUES AUSTIN W. PECK

Alleges in Position Husband Threatened Her Life.

Mrs. Loretta Peck yesterday filed suit to divorce Austin W. Peck, 604B Kingsbury avenue, alleging general indignities and that he threatened her life. She also states that during the marriage he was convicted of embezzlement and served a term in the Jefferson City penitentiary, from which he was paroled in November, 1921.

Peck, an only brother, Robert, was found guilty of robbing securities intrusted to a stock brokerage firm operated by them. Austin Peck was married to plaintiff in Chicago on Aug. 7, 1928. They separated last Monday.

27 Hurt in Bus-Street Car Crash.

## FIND THE CHURCH

"SEEK AND YE SHALL FIND." (8. Math. VII. 7.)

AN AID TO THE INQUIRER  
WHERE DOES THE NAME  
"CHURCH OF CHRIST" BE-  
LONG?

HOW SHALL WE GET THE  
DOCTRINES TAUGHT BY  
CHRIST?

WILLIAM POLAND, S. J.  
Chapter III.

The present Methodist Institution  
grew out of some religious confer-  
ences which John Wesley began to  
have with three or four of his  
friends in the year 1739.

The Kirk of Scotland took its rise  
from a movement which John Knox  
set out on foot in 1557, when, at  
his advice, some of the nobles formed  
themselves into a covenanting body  
which they called "the Lords of the  
Congregation." The Kirk was es-  
tablished by act of the Scottish par-  
liament which assembled at Edin-  
burgh in 1560, and the first meeting  
of the General Assembly of the  
Church of Scotland was held on the  
twentieth of December of the same  
year.

The Kirk of Scotland took its rise  
from a movement which John Knox  
set out on foot in 1557, when, at  
his advice, some of the nobles formed  
themselves into a covenanting body  
which they called "the Lords of the  
Congregation." The Kirk was es-  
tablished by act of the Scottish par-  
liament which assembled at Edin-  
burgh in 1560, and the first meeting  
of the General Assembly of the  
Church of Scotland was held on the  
twentieth of December of the same  
year.

The Society of Friends originated  
in the year 1647.

The Baptists were not an Institu-  
tion until the 17th century. There  
were Anabaptists in 1550; but they  
have disappeared; and the Baptists  
do not claim succession to them.

We may, therefore, rightly limit  
our investigation to the five institu-  
tions which existed in 1550 and ex-  
ist today. Hence, the true claimant  
must be found amongst the five.

Which of these five institutions  
of 1550 was the Church established  
by Christ through the Apostles?

The Anglican Church was es-  
tablished in 1534 by edict of King  
Henry VIII of England—an edict  
which is known as the "Act of Sup-  
remacy."

The Lutheran Church first took  
its definite form in the year 1530,  
when the schedule drawn up by  
Martin Luther and Philip Melan-  
chthon was adopted as the "Augsburg  
Confession," and it was presented at  
the Diet of Augsburg.

The earliest church that can be as-  
cribed to Calvinism, as an Institu-  
tion, is 1541, when the "Institutes of  
John Calvin" were accepted at Ge-  
neva. Even before the year 1600  
there were at least twenty variations  
of Calvinism. Its general idea is  
found today in the Kirk of Scot-  
land, in the Dutch Reformed Church,  
in Congregationalism and in Ameri-  
can Presbyterians.

Now, if we go back another cen-  
tury, that is, to 1450, we find no re-  
cord of the Lutheran Church, nor of  
the Anglican Church nor of Calvi-  
nism. Martin Luther was born in  
1483; King Henry was born in 1491,  
and John Calvin was born in 1509.

Thus in 1450, we find only the  
Catholic Church and the Greek  
Church. Rather, it would be more  
correct to say that in 1450 the Cath-  
olic Church was found in all its  
splendor, while the Greek Church  
was still in its infancy.

Senator Simmons acceded to the  
appointment of a committee con-  
sisting of Senator Smoot as chair-  
man, Senators McLean (Conn.) and  
Curtis (Kan.) for the Republicans,  
and Senators Simmons (N. C.) and  
Jones (N. M.) for the Democrats.

House and Senate Conference Cen-  
ter on Corporation Tax.

WASHINGTON, May 14.—The  
Senate rejected a bill in the hands  
of Senator and House conferees to-  
day for adjustment of differences,  
with the most important provi-  
sions in dispute.

Among the two score amend-  
ments made by the Senate to the bill  
as passed by the House, must be con-  
sidered. Most of these changes,  
however, dealt principally with the  
language of administrative provi-  
sions and present little difficulty to  
the conferees, who plan to dispose  
of all of them before taking up the  
controversial sections.

Members of both Houses and  
Senate conferees selected speedy ac-  
tion, expressing hope that the con-  
ference report would be ready  
within a week or 10 days.

Among the more important Sen-  
ate amendments, on which the  
prospects of a presidential veto of  
the Simmons Income Tax bill  
rested, was the long-contested  
provision for the Longshoremen's  
compensation fund.

It is hardly necessary to go into  
details about the Russian Church,  
which came out of the Greek Church  
of Constantinople. The present Insti-  
tution of the Russian Church  
dates from the year 1721, when it  
was made entirely dependent on  
the czar.

There remains, then, but one  
claimant to the Catholic Church. It  
exists today. It is the church of  
Martin Luther and John Calvin  
and King Henry VIII. They went  
out from it. It existed through all  
that period during which the Greeks  
were going out from it and coming  
back to it. It existed before that  
time through the first nine centuries;  
and of all the many hundred claim-  
ants that rose up against it in those  
first nine centuries, few names are  
even known amongst us.

The succession of the Catholic  
Church from the Church of the  
Apostles to the present day, as an  
identical institution, is complete  
without an interruption. The or-  
ganization of the Catholic Church  
has not varied in all that time. The  
central seat of its administration is  
the See of Rome, where it was 1800  
years ago. The line of its Chief Pastors,  
the Popes, has come down in regular  
succession from Peter who was ap-  
pointed by Christ.

To what Institution, then, does  
the name "Church of Christ" truly  
belong?

What would the jury say?  
(To be Continued Thursday.)

**LETTERS FROM THE PEOPLE**

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

Must Have Transportation.

**I**N REGARD to the discussion as to whether or not the Peoples Motor Bus Co. should be granted permission to compete with the United Railways:

Your editorial of Saturday, May 3, is well taken, so far as competition on an equal basis is concerned, but cannot agree that bus service should be restricted to merely transporting the people to the United Railways car lines, for certainly people within the city limits are entitled to one fare from any point to any other point within the city limits, which they will not get if Mr. Perkins is right.

Why should the United Railways have a monopoly on transportation when they have admitted time and again that they cannot give the service required? If Mr. Perkins feels that buses will never supplant electric street railway service why all this opposition from him?

If the motor bus company is refused permission to operate, what assurance does Mr. Perkins offer that he will give the people in the outlying districts the service he will deprive them of should bus operation be denied?

We of the Walnut Park district believe in being fair, but when we have a chance of getting transportation we are badly in need of it, we do not enjoy seeing anyone oppose it, unless and until he gives something as a substitute for what he hopes to destroy. If Mr. Perkins would get off a Bellefontaine car at Robin avenue some evening and be compelled to walk a mile in the rain, possibly he would give some consideration to the other fellow. On rainy days we have had to walk two hours or sit under a shelter to get home and unless we are fortunate enough to find a machine meet you at Robin avenue you are compelled to get out and get soaked.

Should Mr. Flak or the Board of Public Service ever consider Mr. Perkins' argument, they should take a trip through the northwestern section and get firsthand information of the need of the bus line out there, and I feel sure they will not deny those thousands the service it is in their power to give.

If the United Railways would give adequate service they would automatically retain their monopoly, and if they cannot or will not give the service they admit is needed, they should not be permitted to retard the progress of the city.

**BUSES OR RUST.**

Likes Bobbed and Long.

I AM writing this letter only because I want to congratulate "Seventeen" on her commendable defense of long hair.

Coincidentally enough, I also have just graduated from high school and consequently have had much of the nagging which is referred to in said letter. The girls with bobbed hair have a slight "edge" because of their majority, and, if I may add, that is the only reason for the "edge."

I happen to be a member of the male sex, so naturally I have been asked which style I prefer. I answer frankly, Both. The head dress doesn't make the girl, her disposition does.

Personally, I believe I voice the sentiments of every young man, when I say that you girls are here, primarily, to be loved. The way you wear your hair is merely incidental.

**ALSO SEVENTEEN.**

Prohibition and the Workers.

To the Editor of the Post-Dispatch:

**M**RS. HADLEY's recent pronouncement, "Employers of labor are the proper persons to decide whether prohibition has been a good thing or otherwise," sounds odd, indeed, in a land where men presumably are free and equal.

Will Mr. Hadley go further and explain just why the employers of 100 or 1000 men have more right than the hundred of his workers to decide what may be good for the latter—in matters of their private lives? Does Mrs. Hadley feel the employer is no superior in the matter of intelligence? If so, then the one employing 1000 is 10 times as intelligent as he who employs only 100, and Henry Ford with his 100,000 workers should decide all the world's problems.

Perhaps Mr. Hadley was not thinking of the worker at all, but only which was best for the employer. In this event a law would be "good" if it helped the big boss wring twice the work from his employees each hour of the day. If our laws are to be shaped simply to assist the employer to collect his extra pound of flesh from his workers—regardless how they live or suffer—then the writer agrees fully with Mrs. Hadley, the owners should decide. Until we receive a statement from his article, however, the writer was of the opinion laws were meant to be humane as well as "highly profitable," and that "peaceful pursuit of happiness" was one of the ends desired from such enactments.

E. M. BRENNAN.

**PUBLIC CLAMOR AND THE COURTS.**

The Supreme Court in banc yesterday, by a 4 to 3 vote, decided to grant a rehearing on the writ of prohibition it issued on March 22 which prohibited further prosecution of Arthur O. Meininger, convicted looter of the Night and Day Bank.

This latest action may mean a great deal or it may mean nothing. If the court, in the rehearing, reverses its decision of March 22 Meininger will have to stand trial on the indictments returned against him and, what is of greater moment, a long line of Missouri decisions will be overthrown, the wretched technicalities which has hamstrung justice and enabled criminals to escape punishment will be shattered.

A review of this case is necessary for a proper understanding of this latest development. The Night and Day was closed on May 6, 1922. Investigation showed that nothing much was left of the bank but a shell. Meininger had gotten away with most of its funds. The total of his embezzlements was fixed at \$750,000. The grand jury indicted him on 47 counts. It was a year and a half before he was brought to trial in the Circuit Court of Franklin County. Judge Breuer presiding, on the one count of embezzlement. He was found guilty and on May 31, 1923, was sentenced to five years in the penitentiary.

Meininger's lawyers at once set up the plea that the sentencing estopped the State from prosecuting Meininger on the remaining 46 counts. The Supreme Court sustained that plea, in the decision of March 22, 1924, already referred to, which decision has just been reversed to the extent of granting a rehearing.

Recent experiences should arouse the bankers of Missouri, to say nothing of depositors, to the fact that inadequate laws and a political or ineffective inspection system are the worst enemy of the legitimate banking business. That not even the national banks are free from the influence of bad state supervision is shown in the recent run on the Union National Bank of Springfield, which undoubtedly was due to the panicky feeling of the public as a direct result of the Holland crash.

**THE STATE AND THE BANKS.**

The grand jury report on the looting of the Holland Bank of Springfield reveals the failure of the State government in its responsibility to protect bank depositors. First, there is the astounding fact that the State examining officer last July found the Holland Bank in a weakened condition and recommended that it be closed. There followed a pilgrimage of bank officers to Jefferson City, the result of which was that the State Finance Department permitted the bank to continue operation.

The grand jury justifiably interprets this proceeding as a use of political influence to deprive depositors of their rightful protection. It recommends that the State Banking Department be removed from politics and that it be put on a civil service basis. It complains that high-class banking men cannot be retained for jobs which are subject to political turnover with each change of administration. On that point it is absolutely right. It is also true that the salaries paid bank examiners are insufficient to retain the most competent men. The fault in the Holland case, however, was not with the competence of the examiners but with the doubtful character of their bosses in Jefferson City.

The jury also believes that penalties for officers for the manipulation of records and the misappropriation of funds are too light, and says that the only law relating to banking with any teeth in it is that which provides punishment for receiving money when the bank is in a failing condition.

Recent experiences should arouse the bankers of Missouri, to say nothing of depositors, to the fact that inadequate laws and a political or ineffective

inspection system are the worst enemy of the legitimate banking business. That not even the national banks are free from the influence of bad state supervision is shown in the recent run on the Union National Bank of Springfield, which undoubtedly was due to the panicky feeling of the public as a direct result of the Holland crash.

**BUS SERVICE EXTENSION.**

In so far as the United Railways protest against bus service touches traffic interference on downtown streets used by the street cars, the protest is justified. But the argument that bus lines should not supplement the street cars, but should confine their service wholly to outlying districts which have no street railways, ignores the fact that all kinds of efficient motor-car service are needed to accommodate the St. Louis traveling public.

Proper regulation with regard to bus routes, however, in the interest of all other traffic, is essential to good service. With such regulation, let us have all the buses that are needed. A subway or subways will be required, to relieve the surface congestion, and subway financing and construction ought to be a subject of prime consideration by the city government and the people. With the growth of the city we shall need all these methods of transportation, and shall have the population to make them remunerative.

**LABOR'S MORAL GUARDIANS.**

Several employers of working men and women having given their views on the effect of prohibition on the wage earners, as suggested by ex-Gov. Herbert S. Hadley, a Post-Dispatch reader very pertinently remarks: "It would seem the gentlemen so anxious about the good prohibition has done the workers would call on them for testimony as to their opinion of the law. THE SELF-APPOINTED GUARDIANS OF THE CITIZEN IS WHAT'S THE MATTER WITH THE COUNTRY."

The sentence capitalized deserves to be emphasized and reiterated as a truth borne out by every day's happenings. Organized labor, representing the articulate element of the body of workers, has demanded the return of American liberty in the choice of beverages. Its spokesmen have many times given good and sufficient reasons for this demand, from the standpoint of the worker. That is enough.

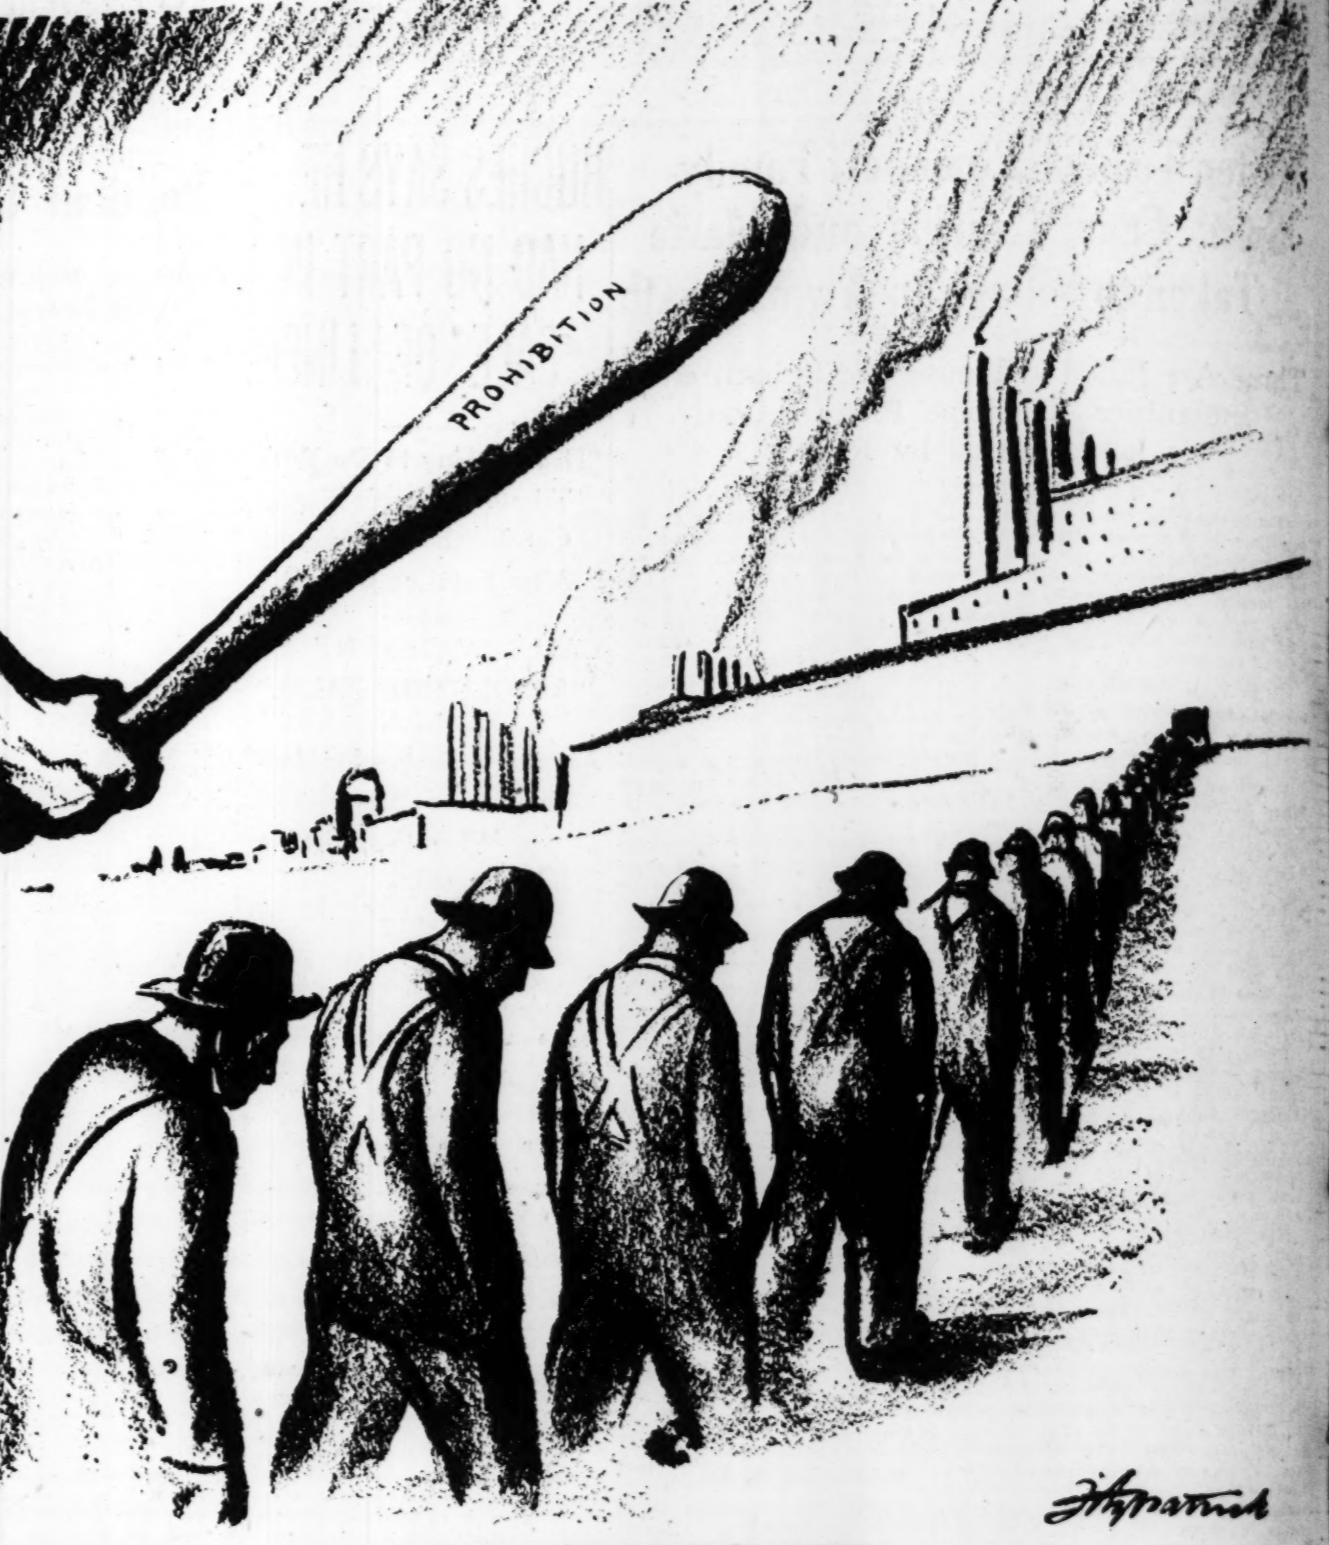

Our army of workers are, in the main, of adult age, possessed of all the rights of citizens, with no larger percentage of morons than are to be found outside their ranks. They need no guardians or advisers as to what they shall eat or drink, except, in emergencies, their medical men; nor, as to their morals, except in so far as they may choose to consult or listen to the religious teachers.

It is such comment, we presume, that Judge Graves designates as "the present clamor, newspaper and otherwise," when, in the dissenting opinion on the rehearing just granted, he places the responsibility for the status of this case on Circuit Attorney Siderer for failing to observe the rules of the court. The Post-Dispatch emphatically holds no brief for Circuit Attorney Siderer, but when Judge Graves gratuitously interpolates an obiter into his opinion to the effect that "the public clamor alone would prevent me from voting for a rehearing in this case" we believe he is challenging the public sentiment of this State. Quite apart from the present tangle of this case the Post-Dispatch believes that the court system of Missouri is indicted by the fact that a year and a half elapsed after the closing of the Night and Day Bank before the man who wrecked it was brought to trial. We believe public sentiment passes the same judgment. Moreover, the Meininger case is not a solitary instance. It is not an exception to the rule. The truth is that verdicts of guilty have been reversed repeatedly in Missouri for the most preposterous of reasons. We beg leave to advise Judge Graves that the Supreme Court will do well to listen to public clamor when public clamor protests against rules and regulations that make crime a safe career, that contrive immunity for criminals and that leave society defenseless.

The Post-Dispatch believes that the welfare of the people of Missouri is the proper concern of our courts: that savings of the thrifty people who put their money in banks should be protected and that criminals who steal this money should be sent to prison and that no court ruling should stand in the way of their just punishment.

That is the point at issue in this case—whether our courts are to administer justice or maintain a system of rules and regulations that makes a mockery of justice.

The San Diego reporter who has won the 1923 Pulitzer prize of \$10,000 for the best news story of the year certainly knew how to pick a subject of general human interest. He wrote up an eclipse of the sun.

**F**AIR Spring a purple coverlet has spread  
Where yesterday had drifited the pure  
snow

And violets in fragrant masses grow  
Above the rows of peace-abiding dead.

A mocking bird announces winter fled.  
The skies rose-tinted are and blossoms blow

To this still spot at dusk shy lovers go  
And hand in hand between green mounds  
Whisper tread.

Life's history here engraved on shafts of stone

Where all paths lead and roads of glory end.

Where pomp and power in humble dust are shown

And Prince and pauper sleep as friend by friend.

Here lovers laugh and in a world their own  
To clouds of romance in a dream ascend.

**HARRY C. JANUARY.**

Darkies newly arrived from the Southern States are not merely plentiful in St. Louis, but have something to do with our current humor.

A pair of these people, husband and wife, are employed as domestics by a Kirkwood family. The man waits on the table. A few days ago the head of the house, having proceeded through the usual courses consistent with the prevailing mode in Kirkwood dining, said:

"It is likely that if we investigated the matter we would find that stock breeding and the banking business have an altogether unexpected economic relation. I have been watching this thing for a long time, and what I have seen satisfies me that the blooded stock we have today is what remains of prior civilizations. The bankers of Asia, for instance, took cows when they were little better than goats and developed them to the point where the bankers of some other country took them. Cows ruined their civilization, but they laid the foundation for the modern dairy."

The same thing is true of horses and dogs. I don't doubt for a minute that developing the horse did for the civilizations of the Babylonians and Assyrians. Like as not the civilization of the Persians exhausted itself developing sheep. They were bears for wool. I seem to have a dim recollection that the Egyptians had goats. If so, their accounts for their disappearance. What could banking do for them?

"Egg pie?" asked the Kirkwooder, corrugating his brows.

"Yassa—egg pie."

"Egg pie?" asked the Kirkwooder, corrugating his brows.

"Yassa, what you all calls custard pie."

Three hundred years ago the Catholics burned Giordano Bruno in Rome. In Geneva the Protestants, likewise in the name of God, burned Michael Servetus. Today few would dream of saying this is the will of their deity. There is which is better.

Their ethics have improved their religion. So it has always been and will always be. The kind of God belief which you entertain depends upon the ethics you accept.

**HENRY NEUMANN.**

If Dr. Nelson gets the Democratic nomination for Governor in Missouri, maybe we will find out where Buncombe, Mo., is.

Where was Maj. Martin's trusty little radio outfit when his airplane went down in the wilds of Alaska?

A Report Day by Day of  
His Observations on a  
Tour of Europe.  
By Clinton W. Gilbert.

I have never been to Lhasa, the forbidden City of Tibet, and I never expect to go there, but it seems to me that Moscow is almost another forbidden city. If you wish to make the journey, you go to the Russian embassy in London and ask for a visa to your passport. You are told to make out an application, which will be mailed to Moscow. In due course Moscow will mail back its approval—if it does approve—and then the visa will be granted. "How long will it take?" "From two weeks to a month."

It seems a long time to wait for permission to enter the soviet of Lhasa. I was fortified with letters. I showed the letters. Well, they would copy the letters and mail them with the application and ask the Government to telegraph instructions. How long would that take? "Ten days or two weeks" cut through the red tape by telegraph to a member of the Russian Government. I knew the consent came back by wire the next day. Evidently one form of propaganda the soviet authorities do not indulge in is the conversion of foreign eyewitnesses.

But when you have won approval of your visit you have overcome only the first difficulties. In a previous article I have described travel through the nuisance nations, only mentioning these nuisance nations because they are more or less typical of after-war Europe. You find them everywhere. In a way the United States is a nuisance nation, with its requirements of visa and its high charge for them. More civilized people, less hundred centers than the United States, Latvia and Lithuania, like England, France, Italy, Holland and Belgium are courteous and their citizens do not charge

Official's Explanations.

Explanations of bank officials as to the \$135,000 failed to satisfy the examiners, the grand jury narrated.

After Sheriff Harris and one of his deputies had told of the "kangaroo" court habitually held by the jail inmates upon newcomers, Ed Sanford added his pleasant, amiable, "Well, Sheriff, if we had a little change we could learn how to shoot craps over there, couldn't we?"

Rathbone Ferguson and Wright filed in with their counsel and bondsmen, going through the required ritual, and departed with little conversation.

**Springfield Now "Hard Boiled."**

Springfield received the grand jury report rather calmly, for Springfield's experiences with the Chinese officials left it "hard boiled" as to financial matters.

The 12,000 depositors of the Holland, who from varying degrees of comfort or affluence were plunged to differing depths of inconvenience or want by the failure of the institution Jan. 15, have become skeptical as the glowing promises of the Holland bankers to re-open, to reorganize or at least to pay out "dollar for dollar" have faded into heavy loss for all concerned.

**Nature of the Charges.**

The embezzlement indictments against Sanford, Ferguson, Mitchell and Wright charged that their

deceit had the effect of an obstacle in the path of Dr. Sun. Despite the financial disaster, the new President began to realize that his influence was not bearing fruit, and that his political influence was pitted in no small degree against that of Gen. Chen Chung-min, who was appointed Southern Viceroy in 1922 despite the fact that he was known to be on friendly terms with the Southern President at the time.

The examiners did not find \$10,000 of forged and spurious notes in the bank during the examination referred to. They did find, however, a substantial amount of doubtful assets as a result of which Messrs. Sanford and Ferguson (president and chairman of the board, respectively) were summoned to a conference in Jefferson City in my office.

"Demand was made upon the officers of the bank that the doubtful assets referred to be removed from the bank or security for same be given. As a result of this conference, they agreed to deposit certain securities to secure the doubtful assets referred to."

"Subsequent to this conference my attorney and myself went to Springfield to see that the deposit of securities was effectuated, which was done, and the securities are now in the hands of the examiner for the benefit of the creditors of the bank."

"No intimation of any nature was given to any officer or employee of the Holland Banking Co. of the impending examination, and this rule is strictly followed by the department that any examiner or employee of the bank giving such information would be summarily dismissed."

**Holland Bank Trials on June 2.**

By a Staff Correspondent of the Post-Dispatch.

**SPRINGFIELD, Mo., May 14.**—Cases growing out of the 23 indictments returned by a special grand jury yesterday against the five officers and directors of the defunct Holland Banking Co. for trial June 2 before Judge Orton Patterson in the Criminal Court of Greene County. All of the five made bond yesterday for their appearance on the trial date.

The defendants, the charges against them and the surety required of each are as follows: Ed L. Sanford, president of the bank, four charges of third-degree forgery, one of embezzlement and three of receiving deposits, knowing the bank to be insolvent, bond \$40,000. Ernest N. Ferguson, chairman of the board; Guy S. Mitchell, vice president, and Claude F. Wright, cashier, each one charge of embezzlement and three of receiving deposits; bond of each \$20,000. Ernest G. Rathbone, vice president,

motor, \$2.89

**DRUGGISTS ROBBED OF \$38.80.**

Alex Pearlstone, druggist, of 211 Chambers street, served ice cream sodas to two youths in his store last evening and they presented revolvers instead of cash in payment. The hold-up netted them \$38.80 in cash and Pearlstone's watch. Both escaped.

## ALABAMA POWER CO. PRESSES OFFER FOR MUSCLE SHOALS

Manager Tells Senators There Is No Limit to Territory Affected by Development.

WASHINGTON, May 14.—E. A. Yates, general manager of the Alabama Power Co., told the Senate Agriculture Committee today that within a few years the whole territory east of the Mississippi River would be inter-connected for electric power requirements.

"When you think of interconnection," he said, "you can let your imagination run wild because there is no limit to the territory that can be covered."

In using the bid of the Associated Power Companies for Muscle Shoals, Yates said that the South would suffer a shortage of power within 15 or 20 years unless the 300,000 horsepower there is utilized. With 4,250,000 horsepower available in the Southeast, he placed the requirements within the next decade at 6,000,000.

"It is conservatively estimated that development in the United States within the next 10 years will require over \$6,000,000,000 to finance necessary extensions to meet the public demand for power and light," the witness said.

"There is now in excess of 500,000 miles of power transmission and distribution lines in this country and in excess of 50,000,000 horsepower installed by public utility power companies.

Yates denied that the Alabama Power Co. is British-owned, declaring securities totaling \$27,000,000 have been sold wholly within the United States during the last few years.

Pillars of smoke sent out by signal towers can telegraph the danger of trees forced into railway lines.

GREEN is the danger signal of your battery. When you see green corrosion on the top of a battery, scrape it off immediately; before it eats at the vital points. Next time, buy a General with its Anchor Seal against green corrosion.

## THE DEATH HOWL.

WE were sitting, three of us, on the broad gallery of a rambling old house down in a little town of South Carolina which is as far away from the rest of the United States as Guam is. The night was heavy with odor of jasmine. Fireflies threaded gold strands across the velvet of the dark. Away off in the swamps sounded occasionally the crump-horn of the fox hunters.

"Yes, sir, dogs do see something human beings miss," old Dr. Lee took up the languid thread of discourse, and his drawl was somnolent as the night. "The darkies round here hold horses have communication with the spirits—even go far's to say the spirits of the dead can return to take possession of some old hound and make a sight of trouble for folks still left on earth. But I dunno—I dunno."

In the dark the sound of ice clicking against glass. "M—m—ah!" breathed the good doctor as he set his glass down. Then, as if he were weighing both sides of an argument: "Still, there's the case of Old Sandy and his 'll-yaller hound."

"Court used to be held in this, a 'll old yaller dog down where town before they changed the law. The Ashley makes the bend county seat. Carpet-baggers did that, and I reckon none of us officers. We got the county seat back again. How be, with cows we used to have an occasional hanging in the public square. That's where they hanged Old Sandy; and now I come to think of it he was the last man ever hanged in this town—legally, that is."

"Gentlemen, this Sandy was a harmless old darky who lived with his unmarried daughter Monia and

## One Thin Woman Gained 10 Pounds in 22 Days

Skinny Men Can Do the Same

All weak men and women, all nervous men and women, all skinny men and women can grow stronger, healthier and take on weight in 22 days by taking one tablet of Cod Liver Oil Tablets four times a day—as easy to take as candy.

And what a hit these flesh producing tablets have made—ever drug store selling more and more of them every day.

Everybody knows that nasty-tasting, evil-smelling Cod Liver Oil is a wonderful flesh producer and strength creator.

But who wants to swallow the horrible stuff when these wonderful tablets—McCoy's Cod Liver Oil Tablets are just as good and as easy to take?

A box of 60 tablets for 60 cents—if any man or woman doesn't gain at least 5 pounds in 30 days—money back. Ask Wolff-Wilson, Judge &amp; Dolph Drug Stores, Underle Drug Co., Johnson Bros. Drug or any good druggist anywhere. Get McCoy's, the original and genuine Cod Liver Oil Tablets.

U. S. WORLD FLIERS  
READY FOR LONG HOP

Weather Permitting, Air Cruisers Will Start From Attu Today on 878-Mile Flight.

By the Associated Press.

BREMERTON, May 14.—Weather conditions permitting, the three United States army around-the-world aviators are prepared to leave Attu Island today for the longest hop of their expedition, with Paramashiri Island, 878 miles distant, in the Kuriles, as their objective. They arrived at Attu last Friday from Atka Island.

Each of the three giant air cruisers has been thoroughly overhauled for the most exacting stretch of the flyers' 27,000-mile journey. Lieut. Lt. Col. H. Smith, piloting the cruiser Chicago, is in charge of the squadron.

Major Frederick L. Martin, the flight commander, and Staff Sergeant Alva L. Harvey, his mechanic, today are aboard the Pacific-American Fisheries vessel, Catherine D, bound for Seattle from Port Moller. The ship is expected to reach Bellingham, Wash., May 23. French Flyer Arrives at Hanoi, Indo-China, on Way to Tokio.

PARIS, May 14.—Lieut. Pelletier Dely, completing another leg of his flying trip from Paris to Tokio, according to an announcement by the French air service, has arrived at Hanoi, in Tongking, Indo-China, from Saigon, in lower Indo-China. Storms were encountered all the way from Saigon, but Lieut. Dely reported that his machine behaved admirably.

Almost the first direct news from Dely since he left Paris arrived yesterday from Saigon, where he and his mechanic, Bessin, were granted a week's leave. He has been the flyers' hero ever since the last stages of his flight. The metal portions of the machine are at times too hot to touch, and canvas is said to be peeling off because of heat.

"At one moment," the Lieutenant wrote, "I feared the heat would bring us down. We were then flying over mountains covered with deep forests. A fine tree the tiger would have made seeing us fall would have made seeing us fall." The Lord, Judge Crosby, sir, I'm innocent. The Lord, Judge Crosby, sir, can prove it in your heart in His own good time. Hyssop, here'll prove it to your eye. At midnight, Judge, after you hang me, Hyssop here'll come to the steps of this courthouse and whine. Not before—just at midnight. That'll prove it to your eye I'm not here."

Dr. Lee drew heavily on the glass that clicked and we two aviators waited his own good time.

"I'm telling you, gentlemen, there's some communication between the spirits of the dead and dogs. They hanged Old Sandy at noon. That's where they hanged Old Sandy up he let that flea-riden 'll yaller dog stay along with him in the cell—for company. And every day of the three days trial, that hound sat at Sandy's feet and snatched at fleas.

"When old Judge Crosby sentenced Sandy to hang and asked him if he had a cause for himself, that darkie spoke up like this: 'Judge Crosby, sir, I'm innocent. The good Lord knows I'm innocent. The Lord, Judge Crosby, sir, can prove it in your heart in His own good time. Hyssop, here'll prove it to your eye. At midnight, Judge, after you hang me, Hyssop here'll come to the steps of this courthouse and whine. Not before—just at midnight. That'll prove it to your eye I'm not here."

### Fighting it Out!

Day in and day out you work for your living and it's a fine old fight—a great game while it lasts. But some time it's going to be mighty hard to take the knocks and men "don't pack the same wallop" as years come on. Fortunately, if you start right you won't have to. The money accumulated in early years in savings accounts at the American Trust Company is taking the knocks and doing the fighting for those who have built on the solid rock of systematic savings. Their reward is comfort and security. Your thrift now will provide your future security. We have a plan to suit your needs. Come in today and let us explain it.

for about \$8.20 a month, you can save \$1000 and be insured for \$1000. In 120 months the money is yours in cash. If you should not live to complete the period, your family receives the \$1000 immediately, plus your savings. You can save larger amounts, the same way, if you wish.

### SAFEGUARDS AGAINST TAX FRAUDS DEVISED

New Card Index System to Be Kept Under Lock in Comptroller's Office.

A card index, which has been added to the existing records of property assessment valuations, and which will be kept under lock and key in the Comptroller's office, will serve in future as a safeguard against fraudulent alteration of the assessment records, such as was shown, by discoveries made last fall, to have been going on for years.

The Alderman appropriated \$50,000 for installation of a new system to prevent future frauds. Just how much the card index will cost has not been announced, but it will take a temporary force of 10 or 12 men to install it, and a permanent group of probably four to keep it revised and to check other records against it.

The city's loss in taxes through the frauds discovered last fall was \$8,250, but about \$8,000 of this has been recovered from the taxpayers who were favored by the alterations.

The Assessor will keep the same records as in the past, his original field plats, his office plats and blotter book, the last named being open to the public for inspection. His force will continue to write up a tax book and the tax bills to be sent to the Comptroller, and a tax book and abstract for the Collector.

But the Comptroller's new card index will be made from the Assessor's original plats, and the bills will be checked against the card index before being forwarded by the Comptroller to the Collector. In the frauds which have been discovered, the figures on the Assessor's blotter book had been changed, or those figures were copied wrongly in making out the tax bills, and the errors long remained undiscovered, for lack of an official checkup with the original plat figures. The new card index will be a great help in furnish such a check.

Each compartment of the new card index will have its individual lock and key, and the index will be accessible only to the clerks in charge, and the head of the office. Installation of the index will begin next week and it is expected to be ready for use by October.

A similar index was installed several years ago in the assessment division of the water rates office.

### RAIL WAGE PARLEY FAILS, ROADS APPEAL TO BOARD

Engineers and Firemen on 90 Western Lines Refuse 5 1/2 Per Cent Increase.

By the Associated Press.

CHICAGO, May 14.—A conference on new wages and working rules for approximately 55,000 engineers and firemen on 90 Western railroads was definitely ended last night without arriving at an agreement, after a deadlock since Monday. An appeal to the Railroad Labor Board to assume jurisdiction of the dispute, should an interruption of commerce occur, was taken by the Committee of Railroad Managers.

Agreement by the railroads to grant an approximate 5 1/2 per cent increase as embodied in the "New York settlement" was refused by employee representatives, who charged that the increase was virtually nullified by modifications of working rules.

The matter will be given preference by the Railroad Labor Board, according to Chairman Hooper.

### SPECIAL ELECTION IN WEBSTER GROVES SCHOOL DISTRICT

Citizens to Vote Tomorrow on Bond Issue of \$160,000 for New High School and Other Improvements.

A special election will be held tomorrow with the Webster Groves School District, which includes some territory outside the suburbs of Webster Groves, on a proposition to issue \$160,000 in bonds, \$150,000 for a new high school, adjoining the present one on Selma avenue, and releasing that structure for use as a junior high, and \$10,000 for an addition to the Douglas School for negroes.

Only registered voters may vote. A two-thirds majority is needed to pass the issue. Polls will be open from 7 a. m. to 6 p. m. It is stated that retirement of old school bonds will make unnecessary an increase of the 1924 Webster Groves school tax rate of 2.33 on the \$100.

### MAN STRUCK WITH HAMMER

Rooming House Proprietor Attacked by Angry Husband.

An angry husband, protesting because his estranged wife had rented a room at 915 North Fifteenth street, last night struck the rooming house proprietor, Albert Roach, 39 years old, on the head with a hammer, causing him to be unconscious for several hours, the latter told authorities at City Hospital this morning.

Roach was found in his room at 7 o'clock last night but was not able to relate his experience until today. He said the wife rented the room in the morning. The husband blamed Roach for renting the room to her. Roach said, and struck him with a hammer when Roach disclaimed responsibility for the wife's acts. Roach gave police the name of the husband but did not know his address.

Rheumatic Pain  
Quickly Relieved by  
New Discovery—  
No Medicines to Take

Cured Me of Inflammatory  
Rheumatism of 8 Years'  
standing," Writes Man  
after Using Two Boxes

A startling new treatment for rheumatism, discovered by Alessandro Volta, the eminent Italian physicist, has now reached this country. Here it is repeating its amazing success in relieving rheumatic suffering—in many states cases succeeding where years of internal dredging treatment failed. This method, called Volta after its discoverer, is in the form of a fine powder, which is not taken internally but is shaken in the shoes. The principle of this new method of treating rheumatism is Medication by Absorption. Volta powder is intended to be absorbed through the myriad pores in the soles of the feet, to eliminate excess Uric Acid. By this method rheumatic pain is relieved, and the stomach is saved the risk that accompanies the old-fashioned dosing. Thousands of grateful users of Volta have already testified, in writing, to the amazing benefits they have received from this discovery.

Very reliable and rapid have been the results from the use of Volta Powder, both in this country and in Italy, that have convinced many physicians and local druggists to dispense Volta with an undesignated guarantee of relief from a use of the powder. Your money will be refunded. If you suffer from rheumatic pain, nothing can be more gratifying than to turn yourself to this startling scientific treatment. It is absolutely safe and painless. You need not do more to receive wonderful relief. You can get Volta Powder from all good druggists everywhere.

Are You a Slave  
to Your Stomach?

Heartburn, gas, sour stomach  
relieved quickly by Haley's

Magnesia-Oil

If your stomach is easily upset; if you suffer with indigestion, headaches, heartburn, dizzy spells, hiccoughs, you can depend on it—Acidosis (too much acid in the stomach) is to blame.

Thousands have found quick, pleasant relief from all these ills by taking Haley's Magnesia-Oil, the new scientific combination of pure mineral oil and mineral magnesia.

Get a bottle of Haley's at your druggist's today and keep it handy on the bathroom shelf. At the first sign of indigestion or constipation take a good swallow of Magnesia-Oil and see how soon you are all fixed up.

The fine quality oil of magnesia contained in Haley's M-O neutralizes stomach acid and the pure mineral oil lubricates the intestines, enabling the body to cast off the waste poisons that always bring sickness in their wake.

Haley's is absolutely harmless. You can give it to the children without the slightest fear. It is splendid for old folks, too, because it corrects constipation without griping or forming a habit. All druggists sell Haley's, trial size 35c, economical family size \$1. Doctors and nurses recommend it. The Haley M-O Company, Indianapolis, Ind.

**WOMAN BOUND AND ROBBED**

Wife of Playwright Tells of \$9000  
Jewel Theft in Hotel,  
By the Associated Press.

NEW YORK, May 14.—Search was instigated today for the woman companion of Harry Lesser, arrested last night on a charge of robbing Mrs. Howard Johnson, wife of a playwright, of more than \$9000 worth of jewels in a hotel suite Monday night. The woman was said to have been in the suite at the time of the assault and was regis-

tered as the assailant's wife. Mrs. Johnson was shown in the bathroom of the apartment, with a rope about her neck, hands and feet. She said she had been invited to the apartment by the couple, whom she recently had met, and after drinking a cocktail had become unconscious. When she came to she succeeded in breaking loose from her bonds and notified hotel employees. The assault was suggestive of those which caused the death of Dorothy (Dot) King and Louise Lawson, police said.

**LIBERTIES UNION  
ASKS SENATE TO  
CURB SPY BUREAU**

Requests That Appropriation for Bureau of Investigation Be Cut and Accuses It of Lawlessness.

By the Associated Press.  
WASHINGTON, May 14.—Attorney-General Stone plans for a time to direct the Bureau of Investigation of the Department of Justice personally, and in doing this he indicated that he believed that the work of the bureau should be confined to such services as Government lawyers require for the preparation of their cases.

Stone said he had given no thought to the appointment of a successor to William J. Burns, who resigned last week as chief of the bureau, and Assistant Director Hoover is discharging the duties of director under direct supervision of the Attorney-General.

BY CHARLES G. BOSS,

Chief Washington Correspondent of the Post-Dispatch.

WASHINGTON, May 14.—The American Civil Liberties Union, an organization which has gained prominence as a champion of free speech, has sent to the Senate Finance Committee a communication urging a large cut in the proposed appropriation for the Bureau of Investigation of the Department of Justice, in order that the "nation-wide governmental spy system built up since the war" may be eliminated. The bureau, which was headed till recently by W. J. Burns, is asking Congress for an appropriation of \$2,500,000.

Much of the material which the civil liberties union has collected during a 10 years' study of the work of the Department of Justice will be presented to the Senate committee now investigating that department under the chairmanship of Senator Brookhart.

Would Abolish Spy System.  
The Civil Liberties Union's letter is signed by Dr. Harry F. Ward, chairman, a professor at the Union Theological Seminary, New York City. Dr. Ward asserts that the union is interested "solely in abolishing the political spy system directed against radicals, and labor which has grown up during and since the war, has not been in a democratic country and creates more trouble than it prevents."

He maintains that "the American people are able to work out their own political salvation without the aid of professional Government Detectives. The union regards the Bureau of Investigation as the chief source of free speech prosecutions throughout the country. This reduction in its appropriation would go far toward preventing future trials upon civil rights."

The union claims that the appropriations for the Bureau of Investigation have increased enormously in the past 10 years, from a half million dollars before the war to two and a quarter million, at about which figure they have been maintained since 1919.

"The naturally expanded work of the bureau during war-years," the union says, "accounts for the increase in expenditures during that period. But no such explanation can be offered for the maintenance in peace time of the appropriations at war figures. The explanations offered by the Department of Justice are first and foremost, the need of combating radicalism in the United States; second, the increase in crime since the war; third, the tendency of state and local governments to put upon the Federal Government the burden of apprehending criminals; fourth, the enforcement of the narcotic and prohibition acts.

Work of Bureau Reviewed.

"Since the need of combating radicalism has regularly been advanced as the chief reason for maintaining the increased appropriations, an examination of the facts is pertinent.

"The antiradical work of the bureau is largely directed to maintaining an extensive spy system.

"One of the activities of the bureau in connection with the radicals have been: (1) To collect and classify data which has been used chiefly for propaganda both by the bureau and by so-called patriotic societies and publications. To those who have any first-hand knowledge of the radical movement in the United States, most of the information given out is obviously distorted, usually inaccurate and deliberately misleading.

"(2) The creation of 'red scares'—appropriate occasions calculated to justify activities of the bureau.

"Elaborate predictions have been made by Mr. Burns and others of May day revolutionary outbreaks, for all of which the bureau was 'fully prepared' and which were, of course, prevented by their mere announcement that they were prepared. None of the scares have ever been justified by events.

"(3) Incitement of states and local officials to bring cases against radicals under state criminal syndicalism and sedition acts, solely on the ground of their opinions.

"(4) Elaborate system of espionage on radicals through professional stool pigeons in their organizations. Some of them have acted as provocative agents, stirring up trouble in order to make cases for the bureau to handle. This activi-

ty is not confined to radical movements, but has reached out extensively into organized labor. This elaborate spy system has grown up chiefly since the war."

Lawless Activities Charged.

The union charges that many of

the activities of the bureau are lawless. Searches and seizures, it is stated, are made without warrants, and other illegal practices are resorted to, such as have been testified to recently before Senate investigating committees.

The spy system is denounced by

Dr. Ward as "similar to the old secret police of European autocracies. The characteristic distinction of those secret police, engaged

primarily in combating political radicalism, was that they were agents of espionage, intimidation, provocative acts and propaganda, and only to a small degree legitimate

enforcers of the criminal law.

Another news item states that the spy system is denounced by

## OWNS 11, YANKEES 0, AFTER 5 1-2 INNINGS; CROWD OF 25,000 SEES GAME

## Shocker Doubles and Scores; Shocker Fans Ruth on Three Pitches

By J. Roy Stockton.

NEW YORK, May 14.—George Sisler sent his Browns against the league-leading New York Yankees this afternoon in the first game of a series in which the New Yorkers' lead is at stake. Urban of Shocker, whose work this year has been a disappointment, reported steady improvement during the last few days and yesterday said he had recovered sufficiently from tonsilitis to return to active duty.

Shocker today was opposed by Waite Hoyt, the youthful right-handed star of the Yankee staff.

Before the game the Yankees and Browns, led by a naval band, paraded to the flagpole where the world championship pennant won by the Yankees last fall, was raised. Judge Landis was master of ceremonies.

Another ceremony was the presentation to Babe Ruth of a certificate stating that he was selected as the most valuable player in the American League in 1923.

Another thing that helped swell the attendance to 25,000 was the presence of George Sisler for the first time since 1922. George spent most of the time before the game shaking hands and posing for photographers.

In the absence of President Dan Johnson, the certificate was presented to Ruth by Irving C. Sanborn, secretary of the Player Award Committee of the American League.

Phil Ball, president and owner of the Browns, sat in a box near the Bronx' dugout.

The game:

**FIRST INNING.** BROWNS—Tobin fouled to Schoger. Robertson singled to center. When Sisler appeared at the plate there arose a cheer which rivaled the load roar at the first game in Sportsman's Park. Then Sisler forced Robertson, Ward to Scott. Sisler stole second. Williams walked. McManus struck out. NO RUNS.

NEW YORK—Meusel grounded to Ruth. Dugan grounded to McManus. Ruth struck out on three pitched balls. NO RUNS.

**SECOND INNING.** BROWNS—Ruth dropped Jacobson's short fly, but his throw to Scott caught Jacobson trying to go to second. Severide singled to left. Gerber was called out on strikes. Shocker flied to Witt. NO RUNS.

NEW YORK—Meusel grounded to Robertson. Pipp flied to Jacobson. Ward struck out. NO RUNS.

**THIRD INNING.** BROWNS—Hoyt tossed out Tobin. Robertson grounded to Scott. Sisler doubled down the left-field line. Williams singled to right, forcing Sisler, and when Shocker let Ruth's throw get past him, Witt flied to center. Dugan flied out. McManus. ONE RUN.

NEW YORK—Gerber whinpled out. Scott. Schoger flied to Tobin. Next tapped to Shocker. NO RUNS.

**FOURTH INNING.** BROWNS—Hoyt tossed out Jacobson. Severide grounded to Scott. Gerber popped to Ward. NO RUNS.

NEW YORK—Witt was safe when Gerber fumbled his grounders. Dugan flied to Jacobson. Pipp got the ball. Meusel flied to Tobin, short right, and Tobin ran to first base and handed the ball to Shocker to double up Ruth. NO RUNS.

**FIFTH INNING.** BROWNS—Shocker coaxed a pass. Tobin beat out a bunt in front of the plate. Robertson also beat out a bunt in front of the plate, filling the bases. Sisler singled to center, scoring Shocker, and when Witt fumbled the ball, Tobin also scored. Robertson was picked off second, Schoger to Scott. Williams singled to center, sending Sisler to third. McManus singled to center. The fifth straight hit off Hoyt. Sisler scored. Williams pulling up at third, Williams scored. McManus took third and Jacobson second when Dugan mopped up Jake's binder. Severide said a sacrifice fly to Meusel, scoring McManus. Gerber tapped to Hoyt. FIVE RUNS.

NEW YORK—Pipp fouled to Robertson. Ward walked. Scott hit into a fast double play. Robertson to McManus to Sisler. NO RUNS.

**SIXTH INNING.** BROWNS—Pipras and Hoffmann formed the new battery for the Yankees. Shocker walked. Tobin also walked. Robertson doubled down the right field line. Shocker scoring and Tobin stopping at second. Shocker and Williams. Williams doubled to right, scoring Tobin and Robertson. Williams stole third. McManus tripled to deep left, scoring Williams. Scott threw out Jacobson and McManus scored. Severide singled to left. Severide tried to go from first to third on a wild pitch, but was out. Hoffmann to Dugan. FIVE RUNS.

**SAM GANOTSKY WINS CHECKER TOURNAMENT**

By the Associated Press. NEW YORK, May 14.—Sam Ganotsky, 22-year-old Brooklyn clerk, who emigrated to the United States at the age of 12, today won the national checker championship when he defeated Alfred Jordan of Kansas City, Kan., former British title holder. In the final round of the tournament that has been in progress for nearly three weeks.

**Belgian Team Eliminated—British Isles Players Meet Spaniards Next.**

By the Associated Press.

TOULOUSE, France, May 14.—Great Britain today eliminated Belgium from the 1924 Davis Cup competition, winning three out of the five matches which made up the first round contest between these countries. As a result the British will play Spain in the second round.

DOWN  
MARKET,  
RIES STRONG

Government Issues  
at Top of Year—  
Bonds Quietly Firm—  
Slight Gains in Exchange  
Market.

## Markets at a Glance

NEW YORK, May 14.—Conditions in the various markets today, briefly, follow: **COAL**—Lower, Reading Coal independent. **BONDS**—Irregular, general U. S. Government issues at new 1924 high. **FOREIGN EXCHANGES**—Higher, French rebound 30 points. **COTTON**—Up, bullion weekly weather report, better inquiry from mills. **COFFEE**—Dull, trading featureless. **WHEAT**—Steadier, bullish crop report. **CORN**—Advanced, unfavorable weather. **CATTLE**—Strong and active. **HOGS**—Higher, light receipts.

By Leased Wire from the New York Bureau of the Post-Dispatch.

NEW YORK, May 14.—The Evening Post, in its copyrighted financial review today, says:

"The sentiment affected by the downward movement of prices and traders still talking about what may happen to the home and foreign mills, the stock market displayed a new year's activity. Activity was on a somewhat larger scale, total sales amounting to 8,000 shares. Rallies were again taken in a regular fashion, but the shorts put pressure on sugars, motors and the shares of the accessory companies. As a result, the market was fractionally lower at the close. Bonds were quietly firm with two of the Liberty issues making new highs for the year. Call money continued to lend 2½ per cent."

**Exchange**—Firm. "Quiet firmness continued in the foreign exchange market, with francs again furnishing the chief development of interest. Offering of France were small and a steady demand held the price 26½ points to 5.92½ cents. This is approximately the price which existed before the results of the French election startled the market out of its composure. Second thoughts in the continental markets on the significance of this turn continued to be favorable, most observers pointing out that the leaders of the party which has come into control in France are making it clear that they adhere to the Dawes plan, and that Germans are not cherishing illusions regarding their ability to escape paying what they owe. Belgian francs followed those of France and gained 20 cents, while Swiss and Italian lire were 2½ cents. Belgian francs were 2½ cents higher at 4½ cents. Sterling continued to hold within an unusually narrow range and gained ½ cent at 5.56½. The other Europeans were hardly changed and the market as a whole was distinctly quiet."

**Commodities**—Firm, more bad weather in the growing areas stimulating short covering. The Commodity Bureau report on cotton during April was not radically different from what the trade had expected, but was moderately bullish. The report showed that 40,000 bales were taken by the country's mills. This is considerably below April's takings of 576,000 bales, but, considering all the talk of restraint which has been heard, compares rather favorably with the assumption of 48,000 bales in March. April exports amounted to 221,000 bales, thus showing that foreign sales are continuing to run ahead of the rate of the year. At a late price of 25.29 cents, the daily future was up 12 points on the day. Wheat prices held steady with May at 3.04—4.

**Steel Industry Situation**—Mid-week reports from the steel industry disclose no marked change in the situation. Production still declining, but the rate of curtailment is now lower. As the market is still now open, it is being at about 42 per cent of capacity, this slackening in the rate at which production is being cut is not at all surprising. Buyers still are holding back, waiting attitude and prices continue to display a soft tone. The iron and steel men say that "there is no indication of an effort at stabilization, of which something has been held, but most sellers seem to be limiting their concessions to those who are well known in recent weeks, realizing that the situation may go on for several weeks without decisive change."

There is a somewhat better inquiry for pig iron, but no strong indication that the market has reached a turn.

## Foreign Exchange

NEW YORK, May 14.—Following is a list of quotations in the foreign exchange market:

FRANCE—**Franc** (D. 5.92½).—**London**—80-day bill, 5.92½; 90-day, 5.93½; 120-day, 5.94½; 180-day, 5.94½; 240-day, 5.94½; 300-day, 5.94½; 360-day, 5.94½; 420-day, 5.94½; 480-day, 5.94½; 540-day, 5.94½; ## BARONET BOOTLEGGER PAYS BIG DIVIDEND

Delivers 20 Per Cent Profit on  
Fourth Rum Cargo to U. S.  
and Promises 25.

Special Cable to the Post-Dispatch.

LONDON, May 14.—Sir Broderick Hartwell, Baronet, today paid his clients the promised 20 per cent dividend on his fourth cargo of rum, which he brought from the United States from outside the limit imposed by the new Anglo-American rum-trading treaty. As far as can be learned, Sir Broderick has, up to date, made good on his much advertised guarantees of a 20 per cent profit per cargo to all those who invested. Encouraged by his success in disposing of four shiploads, he is now asking his clients for a minimum subscription of \$25. Previously he had accepted as little as \$15. But now he promises to pay 25 per cent dividend.

He frankly admits he is much encouraged by the popularity with which his business has been greeted in America. In a letter to one of his clients he wrote:

"During a recent visit to this country the chief of the whisky industry in New York requested me to label all my goods with a special label, giving my personal guarantee as to strength and quality. The press in the United States has so freely circulated my name as being one of the most prominent exporters of wines and spirits in this particular trade that my brands are now well known and eagerly sought by New York buyers, and in consequence of the exceptional quality of the goods I have sent over (which are specially blended and bottled by me) commencing with this fifth shipment my buyers have guaranteed me a special increased price for my goods thus labeled."

Sir Broderick is always careful to point out to his prospective clients that his business violates no law in the United States. Ships, even before signing of the Anglo-American treaty, kept far enough from the American shores to comply with its terms.

## Kill Rats!

Nothing can be more disagreeable than a home infested with rats, mice, cockroaches, waterbugs, ants, etc., the greatest known destroyers of food and property; also carriers of disease. Kill these pests by using

**Stearns'**  
**Electric Paste**  
the standard exterminator for over 45 years. It is ready for use; better than traps, and does not blow into food like powders. Directions in 15 languages. 35c and \$1.50. Money back if it fails. Sold by all druggists. Refuse substitutes. **U. S. Government Buys It**

**Clean Teeth**  
Scour the danger points; between teeth, along the gums—with Pasteurine. Children like its delightful flavor. At your druggist, 25c, 50c, \$1.00.

for  
pyorrhea

Your dentist will tell you that an absolutely clean condition of the mouth, such as Zonite produces, is the best preventive and corrective for gum infections including pyorrhea. Zonite kills the germs present in these cases, overcomes breath odors and makes the gums firm and sound. It is the ideal antiseptic for thorough yet safe mouth-cleansing. In bottles at your druggist's, fifty cents and one dollar.

## TO CLEAN UP KANSAS CITY

## FOR SHRINERS' CONVENTION

100 Dry Agents Sent There to War on Liquor Traffic—Police to Co-operate.

KANSAS CITY, Mo., May 14.—More than 100 Federal prohibition agents are being moved to Kansas City to assist in the suppression of liquor traffic, which has increased in view of the Shrine convention. Russell F. Greiner, appointed envoy to the law enforcement officers by the Shrine Executive Committee, said today.

A request for reinforcements was made by Fred O. Woods, chairman of the Shrine Executive Committee, through Greiner. Special squads of Federal agents will open an intensive campaign against liquor and narcotic traffic when we're here.

Rumors are current that large quantities of liquor are being imported and stored for sale during the convention. One report has it a carload of alcohol to be used as a base in drinks sold in bootlegging drug stores, already has arrived in Kansas City.

"Government agents already know where some of the liquor caches are," Greiner said last night. "The caches will be raided immediately and the liquor confiscated."

Roland P. Rice, Police Commissioner and Shrine chairman, and John L. Miles, County Marshal, have promised the Shrine Executive Committee their co-operation in the drive on liquor, narcotics and commercialized vice.

## The New ADJUSTABLE "NEVER-SAG" • Knitted Wire Bed Spring

### The ONLY Bed Spring You Can Adjust to Suit Your Own Comfort

A simple turn of the key adjusts this Bed Spring to any degree of tension desired, making it soft or firm to suit the season of the year or the sleeping habits of the user. An important improvement that means greater comfort, sounder sleep, better health and longer life.

The "NEVER-SAG" is knitted from one continuous strand of tempered spring wire—no loose ends to tear bedding. Noiseless, rust-resisting, sanitary, indestructible. Guaranteed for 25 years.

On Sale at Leading Furniture and Department Stores

Manufactured by the Western Wire Products Co., St. Louis, U.S.A.

# Do You Buy Lubrication— or Merely Oil?

The Standard Oil Company (Indiana) sells you lubrication. It sells you absolute friction reduction worked out with scientific exactness.

When you buy Polarine you get, in addition to a few quarts of oil, the vast lubricating experience of the Standard Oil Company (Indiana)—you get the benefit of the accumulated scientific knowledge—both chemical and mechanical—which this experience has gathered. You get the net result of hundreds of laboratory and road tests.

## Use Polarine

THE PERFECT MOTOR OIL

### Made in Five Grades

You reduce carbon to a minimum—you lengthen the life of your engine and bearings—you minimize repair bills—road annoyance—laid-up car—and lost time.

All this you get when you purchase a gallon of Polarine—well worth-while, isn't it?

Hundreds of thousands of motorists in the Middle West have proved that using Polarine is sound business. They are following the chart at the left. Your car, also, is there.

Stop at the next Standard Oil Service Station or at any Garage or Authorized Filling Station showing the Polarine sign; tell the attendant to fill up your crankcase with the right grade of Polarine.

Then, drain your crankcase every five hundred miles and refill with the right grade of Polarine.

Put lubrication on a business basis—it pays.

## Harry Lauder Says:

"My bank book is my favorite reading, I confess. I do my work for the love of it; because my heart is in it. But a bank book can be thrilling—the best literary thriller in the world. Next to the Bible, the bank book is the world's greatest book."

"The edition of the bank book is too limited. Every man should have his copy. And he should keep it for private circulation—very private. No other one in the world should know what is in that precious bank book. The Scots have a proverb: 'Aye, keep somethin' to yersel' ye would na tell to ony!' That's your bank book. On every page there should be something nicer than on the page before. And every bank book should have a happy ending. On the last page the end should be: 'Continued in our next.'

"The bank book should be the foundation of the family library. People open the check book too often, and the bank book not often enough. The check book's too full of reading matter!"

If you, too, would own the second greatest book in the world, the Banks, Trust Companies and Savings Institutions whose advertisements appear in The Post-Dispatch will be pleased to explain how easy it is to start the first installment. Today is the time to begin.

# DUBLINGAGE FOR WOMEN

ST. LOUIS POST-DISPATCH WEDNESDAY, MAY 14, 1924.

## Children's Stories : Household Hints

### MEDITATIONS MARRIED WOMAN

By H. E. ROWLAND

**M**AN was once a savage, and himself to woman only in grunts and dumb signs.

Now he is civilized as far as monosyllables, sniffs, swear-words and baby-talk.

It is a feat to get him even before marriage. He may babble in "Golf," "Radie," "Dad," but he would sooner be asked to recite a poem than to tell a girl he loves her in plain English.

Of course, a woman wants that a man loves her, long before HE knows it; but that prevent her from yearning for a bona-fide proposal and a real love-making.

No married woman will you that her husband said when he proposed to her, really she can't remember that he said anything.

It is only on the stages they say, "Will you marry him? In real life they are much more to mutter, "Oh, you know what I mean! Can't you see what I say?" And that's as far as they get.

In order to extract a useful proposal of marriage from a man, you have to write him say it over after you.

But if he can express a kiss, and escape the WORDS, he feels like one who has crossed Broadway at the rush hour without being hit by car.

And many a man has whom he had not the least desire to kiss, just because it's easier than trying to think up something to SAY to her.

After marriage, of course, wisdom opens his mouth, except to put food into it or to answer isn't ready.

The only way in which to discover how much her husband really thinks of her, is back and read it on her tombstone.

A little flattery would be a man a lot of alimony; but he'd rather pay in cash than effort and the sacrifice of words.

Presence of words always denotes absence of love; he never becomes eloquent except he doesn't mean anything.

Still if men ever should frank with women, life would lose lots of its flavor. Hallucination of a woman's existence consists in guessing just how a man MEANS of the little he SAYS.

And if you must hear talk, you can always ask him to give you a little ADVICE! It will turn the most taciturn man from a Sphinx into a phonograph.

### PHILOSOPHY PHRASES.

Nature has appointed the Our own heart, and not other light as a bridge to pass us over our opinions, forms our true light into day.

He travels safe, and not untroubled. No man ever offended his own enemy, who is guarded by prudence, but first or last it was and guided by love.

Sweet language will make friends, and a fair-speaking tongue. Wherever is love and loyalty, friends, and kind greetings, and purposes and lofty souls, even in a hovel or a mine, there must not only shut himself up, but also break his tongue in spreading the glass.

There is no substitute for action. Action has in it a higher end than any other way. It is the highest and most earnestness.

We can do more good by than in any other way.
